NO SHORTCUTS

NO SHORTCUTS

NO SHORTCUTS

Like the modest champion sitting in the corner listening as others spit their egos all over each other, SCOTT quietly lets its achievements, its victories, its skills speak for themselves. We don't make products for those who yearn to be noticed. We make them for those who are going to do what they do whether there's anyone watching or not.

If you're like us, you say what you say, do what you do, ride where you ride because you love it. You do it the right way. You do it for the right reasons.

INNOVATION

TECHNOLOGY

DESIGN

Since 1958 SCOTT Sports has pushed the limits of innovation, technology and design. From the first aluminium ski pole, to the introduction of aero bars and the original plastic moto cross boot, we have led the way in the sports industry.

Combining endless determination to improve with the methodical intricacy put into each product, SCOTT prepares athletes to reach their highest potentials.

The 2025 collection exemplifies this mentality and the unification of our three core philosophies. When you push yourself to the limit SCOTT will stand by you and help you surpass what even you believed was impossible. Let our passion become your passion and

your successes become our successes.

ELEVATE

YOUR

SAFETY

WITH SCOTT - WE'VE GOT YOU COVERED.

We develop, test and re-test in order to perfect our products over years and years. Our goggles, gear and body protection give you that extra bit of safety in those crucial areas of your body when it counts. Regardless if you are on the track, on trails or anywhere else -

“ELEVATE YOUR SAFETY”

WE GO BEYOND THE STANDARDS

WITH SCOTT - WE'VE GOT YOU COVERED.

SCOTT Sports has pushed the limits of innovation, technology and design and consequently is also pushing the limits of safety. For our Motosports collection, safety has a very high priority. It is not only the human power, but also the raw engine power beneath the rider that demands this extra level of safety. We at SCOTT are proud that our wide protection expertise, gained from our different sport involvements, allows us to push safety beyondstandards.

When you push yourself to the limit SCOTT will stand by you and help you surpass what you believed was possible. We take the statement "Elevate your Safety" very seriously and don't award this accolade to every product. Items in this category provide you with safety above standards. Convince yourself by checking out our range of "Elevate your Safety".

"ELEVATE YOUR SAFETY"

SP0 SCOTT
PRECISION OPTICS

EYEWEAR LENS LOCK SYSTEM

With this feature SCOTT guarantees the safest lens retention on the market. It features 4 locking pins that go through the lens keeping the lens in no matter what.

BODY PROTECTION EXTENDED COVERAGE DESIGN

D30® is a unique material that focuses on energy dispersion in critical areas for maximum shock absorption and protection.

PROSPECT AMP

The SCOTT Prospect AMP Goggle not only defends, but also amplifies your vision when riding. The lenses are injection molded to provide improved contrast and optical clarity, allowing you to see contours and transitions in the dirt in ultra-high definition.

PROSPECT 2.0

THE NO. 1 CHOICE FOR CHALLENGING CONDITIONS.

When it comes to racing on wet or muddy tracks, the Prospect 2.0 WFS goggle is the only real choice. The race-proven, precision-engineered WFS50 system combined with the massive field of vision leaves all other goggles scrambling for second place.

The SCOTT Prospect 2.0 WFS is the second generation of SCOTT's flagship motocross goggle. It features SCOTT's ground-breaking Quick Lens Release System which allows users to unlock the four lens locking pins instantly for a quick and easy lens change, without compromising on the industry-leading safety ensured by the SCOTT Lens Lock System. The SCOTT Prospect 2.0 WFS Goggle is the perfect solution for racing in wet and muddy conditions. It comes equipped with a WFS50 roll-off system for a large and clear field of vision when the mud starts spraying. The canisters can be clipped directly on the WORKS lens pins for quick and easy installation, with no tools required. The transparent anti-stick grid offers a superior field of vision, smooth sliding on the lens and a better sealing with the lens.

PROSPECT 2.0

A PRO-LEVEL GOGGLE FOR RIDERS THAT DEMAND THE BEST.

Previously only available to our pro team riders, the SCOTT engineers have spared no expense in their quest to make the Prospect 2.0 Super WFS the ultimate motocross racing goggle. With exclusive features and premium components, this goggle is as good as it gets.

The SCOTT Prospect 2.0 Super WFS is the second generation of SCOTT's flagship motocross goggle. It features SCOTT's ground-breaking Quick Lens Release System which allows users to unlock the four lens locking pins instantly for a quick and easy lens change, without compromising on the industry-leading safety ensured by the SCOTT Lens Lock System. The SCOTT Prospect 2.0 Super WFS is the ultimate motocross racing goggle. It possesses the same great features as the Prospect WFS, but the Super WFS version features a double WORKS lens with the unique addition of premium anti-stick dots for hyper-smooth sliding action and an upgraded mudflap with sealing tape for maximum performance. It comes equipped with a WFS50 roll-off system for a large and clear field of vision when the mud starts spraying. The canisters can be clipped directly on the WORKS lens pins for quick and easy installation, with no tools required. The transparent anti-stick grid offers a superior field of vision, smooth sliding on the lens and a better sealing with the lens.

PROSPECT 2.0

OPTIMAL PERFORMANCE WITH ENDURO-SPECIFIC FEATURES.

Designed to perform in the toughest conditions on the planet, the Prospect 2.0 Enduro features a double lens and an air control ventilation system to ensure your vision remains crystal clear no matter where you find yourself riding.

The SCOTT Prospect 2.0 Enduro is the second generation of SCOTT's flagship motocross goggle and is designed specifically for the modern enduro rider. It features SCOTT's ground-breaking Quick Lens Release System which allows users to unlock the four lens locking pins instantly for a quick and easy lens change, without compromising on the industry-leading safety ensured by the SCOTT Lens Lock System. Boasting the same great features as the standard Prospect, it also comes with a double lens with Air Control System that prevents fogging and gives the enduro rider extra-clear vision in low-speed situations. In addition, it features an innovative SCOTT Lens Lock System and NoSweat face foam. To avoid slipping of the goggle, it is equipped with an extra-wide, no-slip silicone strap. This strap, together with the articulated outriggers, highly contribute to the improved helmet integration.

SCOTT

DESIGNED TO DEFEND YOUR VISION FROM THE SMALLEST GRAINS OF SAND.

In the desert or on the beach, the Prospect 2.0 Sand Dust LS is constructed with specifically engineered foam that ensures the sand stays out of your eyes. Paired with a Light Sensitive lens which adapts to sunlight intensity, this is the ultimate goggle for all sand-based riding.

light sensitive

The SCOTT 2.0 Prospect Sand Dust Light Sensitive is the second generation of SCOTT's flagship motocross goggle and has been specifically designed for use in deserts, on beaches and out in the dunes. It features SCOTT's ground-breaking Quick Lens Release System which allows users to unlock the four lens locking pins instantly for a quick and easy lens change, without compromising on the industry-leading safety ensured by the SCOTT Lens Lock System. The already exceptional features of the Prospect goggle are paired with the revolutionary Dust Catcher foam. Ride freely without worrying about even the smallest dust or sand particles getting inside your goggles. This assurance, combined with a large field of vision, the innovative SCOTT Lens Lock System, articulated outriggers and a Light Sensitive lens that adapts automatically to sunlight, are everything you need for your next ride.

FURY.

LOW PROFILE, HIGH PERFORMANCE.

The younger brother of the Prospect, the Fury is a lightweight option that doesn't compromise on safety or style. Pushing the limits of field of vision, comfort and lens retention, the Fury is a perfect choice for all levels of rider.

The SCOTT Fury Goggle is guaranteed to shake things up. Shaped by innovation, technology and design, the Fury follows in the steps of our flagship goggle, the Prospect. Featuring our proven SCOTT Lens Lock System, 3-layer face foam, no-slip silicone strap, and supporting all the same accessories as the Prospect, this low-profile, high-performance motocross goggle was fully developed to Defend Your Vision in any and all conditions.

SCOTT FURY WFS GOGGLE

The SCOTT Fury WFS comes equipped with all the same great features as the standard Fury. This upgraded version comes with a pre-installed WFS50 roll-off system, offering a large, clear field of vision even in the muddiest conditions. The canisters can be clipped directly on the WORKS pins of the lens, which makes their installation much easier and less time-consuming. It takes almost no effort as there are no tools required. It also makes the switch from roll-off to tear-off simple and fast. The improved, transparent anti-stick grid offers a better field of vision, easier installation in the canisters, better sliding on the lens and better sealing with the lens at the top.

SPLIT

THE ULTIMATE GOGGLE FOR WEARING OVER THE GLASSES.

The SCOTT Split OTG Goggle is the ultimate goggle for wearing over the glasses. A new integrated RAM Air System dictates the flow of air coming into the goggle through the top spoiler to ensure the lenses don't steam up and stay crystal clear all day long.

BIG 3-LAYER FACE FOAM

INTEGRATED RAM AIR SYSTEM

OPTIMIZED FOR PRESCRIPTION GLASSES

NO-SLIP SILICONE STRAP

The new and fully updated SCOTT Split OTG Goggle is the ultimate goggle for wearing over the glasses. A new integrated RAM Air System dictates the flow of air coming into the goggle through the top spoiler to ensure the lenses don't steam up and stay crystal clear all day long. Combined with 3-layer face foam, SCOTT's NoFog™ Anti-Fog lens treatment and a fit that has been specifically designed to be worn with glasses, the new Split OTG makes riding in glasses a breeze.

FRAME TECHNOLOGIES

- 3-layer face foam
- No-slip silicone strap
- Integrated RAM Air System

89X | ERA

ULTIMATE STYLE IN THE DIRT OR ON THE STREETS

Back by popular demand, The SCOTT 89X Era goggle is a true revival of the original and much-loved SCOTT 89 series goggle from back in the day, with a few cool twists of course!

NO-SLIP SILICONE STRAP

NOFOG™ ANTI-FOG LENS

2-LAYER FACE FOAM

The SCOTT 89X Era goggle combines classic moto style with modern performance features. Stopped in heritage, this goggle is a true revival of the original and much-loved SCOTT 89 series goggle from back in the day, with a few cool twists of course! The strap has been fully updated with new materials including silicon lining and premium branding. Fitted with a stunning chrome lens as standard and featuring 100% UV Protection and anti-fog lens treatment, you don't have to worry about your vision in the dirt or on the streets. Finished with exceptional painting detail and unique designs, the 89X Era is the no. 1 choice for that real retro look!

**AMPLIFY
YOUR
VISION**

AMP

THE MOST INNOVATIVE LENS TECHNOLOGY SCOTT HAS EVER DEVELOPED

SCOTT'S OFF-ROAD INJECTED MOLDED AMP LENS TECHNOLOGY UTILIZES A UNIQUE LIGHT TRANSMISSION CURVE TO OPTIMIZE THE TRANSMISSION OF KEY LIGHT WAVES THAT ARE MOST IMPORTANT TO THE HUMAN EYE, SO YOU CAN SEE MORE IN EVERY CONDITION.

WHAT IS CONTRAST?

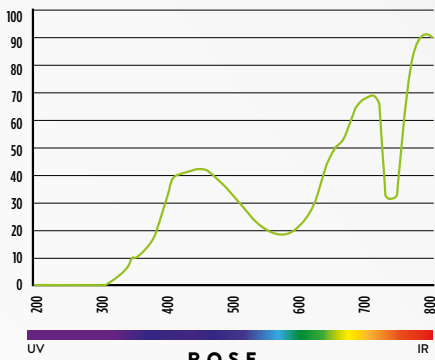

The SCOTT AMP Technology tint is designed to let through some specific colors to your eye while filtering out others, in order to create a high contrast within the terrain you are looking at.

HOW DOES THE EYE PERCEIVE CONTRAST?

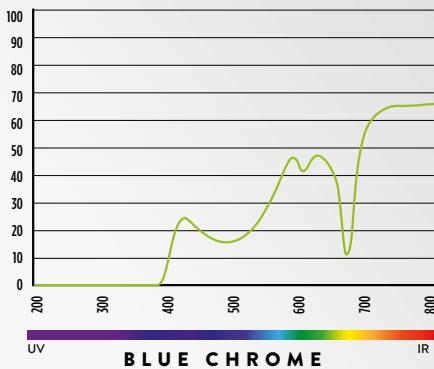

Through years of research we have learnt that our eyes are better at perceiving certain wavelengths than others. The eye can be thought of as the lens of a camera. There are parts and mechanisms inside the eye that control the vital role in our ability to see things in focus, color, darkness and brightness. By controlling what is let through the AMP lens, we can control how the external environment is perceived.

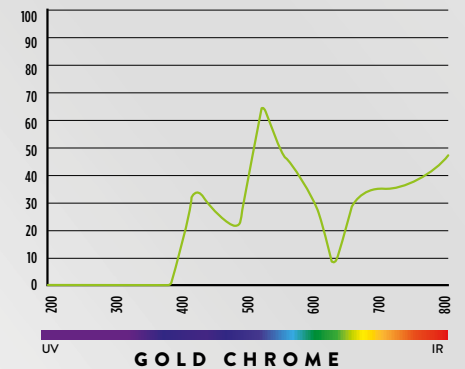

CAT. S1 ☁

CAT. S2 ☁*

CAT. S2 ☁*

CONTRAST AMPLIFIED

SCOTT sets the industry standard for contrast enhancing optics with its patented AMP lens technology. The secret to AMP technology is its ability to add contrast while increasing clarity and definition in all racing conditions.

MAIN BENEFITS

- Allows you to see contours, ruts and transitions in the dirt in ultra-high-definition
- Works for both motocross and enduro
- Builds speed and confidence through improved visual clarity

light sensitive

ONE LENS

FOR EVERY

LIGHT CONDITION

SCOTT's Light Sensitive lenses engage photo-chromic technology and adapt automatically to sunlight intensity to give you ultimate vision on the track regardless of the light conditions. These lenses automatically react to light changes and within seconds the lens will either darken when the brightness gets stronger or lighten when the sunlight gets weaker. This means going from bright sun into sudden shade has never been easier.

PROSPECT LIGHT SENSITIVE

SCOTT WORKS LENSES

SCOTT'S INNOVATIVE WORKS LENSES SET OUR GOGGLES APART FROM THE REST.

FEATURING SCOTT'S HISTORIC TECHNOLOGY, THE WORKS LENS ENABLES THE RIDER TO USE THE SAME LENS FOR BOTH TEAR-OFFS AND ROLL-OFFS. WITH THESE DO-IT-ALL LENSES, YOU CAN BE FULLY PREPARED FOR WHATEVER THE WEATHER MIGHT THROW AT YOU. THANKS TO THE FACTORY-INSTALLED WORKS PINS, SCOTT ROLL-OFF SYSTEMS OR TEAR-OFFS CAN BE EASILY AND QUICKLY MOUNTED AND REMOVED DEPENDING ON THE RACE PROFILE AND TRACK CONDITIONS.

4-PIN WORKS LENSES

For the larger lens on the SCOTT Prospect and Fury goggles, the 4 pins provide more stability for the tear-offs and the WFS50. With this system the accessories will always remain tight to the lens and provide the rider with a better vision.

SCOTT

FRAME & FOAM

TECHNOLOGIES

FOAM TECHNOLOGIES

NO SWEAT FACE FOAM

SCOTT's unique NoSweat Face Foam consists of a microfiber layer that is extremely water absorbent. It soaks up moisture fast and avoids sweat getting into your eyes or inside the goggle.

3 LAYER FACE FOAM

SCOTT's three-layer, open-celled face foam with fleece has excellent moisture-absorbing properties, and offers increased levels of comfort and an improved fit thanks to the extra layer of protective foam.

2 LAYER FACE FOAM

SCOTT's two-layer, open-celled face foam with fleece has excellent moisture-absorbing and thermal properties, ensuring that you stay warm, dry, and comfortable all day.

1 LAYER FACE FOAM

Thanks to the large, soft, single density face foam, a precise fit around facial features is provided while sealing out the elements.

DUSTCATCHER VENT FOAM

Dustcatcher vent foam is a purpose-engineered vent foam that has finer holes than standard to stop dust getting through the foam and into your goggles and eyes. Essential for any form of desert, beach or sand racing.

FRAME TECHNOLOGIES

SILICONE STRAP

Adhered silicone strips on the inside of the goggle strap ensures the goggles stay in place on your helmet.

EXTRA WIDE NO-SLIP SILICONE STRAP

Our 50mm straps provide superior stability and comfort under any conditions as well as ultimate style.

QUICK LENS RELEASE SYSTEM

The SCOTT Quick Lens Release System is an innovative new solution that allows users to quickly release all four SCOTT Prospect lens lock pins at once simply by pushing the outriggers together. This means fast and easy lens changes with no compromise on safety.

LENS LOCK

The SCOTT Lens Lock System has been designed to guarantee the safest lens retention on the market. To avoid the lens coming out, this innovative Lens Lock System features four locking pins that go through the lens instead of grabbing it from the top.

WORKS FILM SYSTEM (WFS)

The ultimate solution for racing in wet and muddy conditions.

RAM AIR

RAM (Revolutionary Air Management) System increases the airflow inside the goggle frame to avoid moisture on the lens.

OTG

OTG goggles offer protection from the elements and an optimized fit for people requiring prescription glasses, thanks to a specific and adapted construction.

SCOTT

LENS

TECHNOLOGIES

LENS TECHNOLOGIES

AMP

AMP is a technology to optimize visual contrast and clarity. The unique aspect of AMP is the shape of the visible light transmission curve, optimizing three specific wave lengths which are the most important for the human eye to enhance contrast and clarity.

light sensitive

LIGHT SENSITIVE

SCOTT Light Sensitive lenses engage photochromic technology and adapt automatically to sunlight intensity. Light Sensitive lenses react to light changes and within seconds the lens will darken if the sunlight gets stronger or lighten if the sunlight gets weaker.

ANTISTICK GRID WITH MUDFLAP

The anti-stick grid with an integrated mudflap provides a clear view throughout the entire ride. The mudflap is made out of a transparent material that offers a larger field of vision in dusty or less extreme conditions.

ANTISTICK DOTS

To ensure the smoothest film transfer possible, anti-stick dots on the lens provide pro-level performance when you need it most.

ACS

ACS ventilation incorporates lens air intake vents on the goggle lens and frame air outtake vents on the bottom of the goggle. The result is a sophisticated ventilation system that helps prevent condensation and fogging.

NOFOG

SCOTT lenses undergo a permanent NoFog™ treatment process to prevent condensation and fogging.

UV PROTECTION

100% UV Protection All SCOTT lenses are optically engineered to screen out 100% of harmful UVA/UVB rays.

PROSPECT WFS

The SCOTT Prospect Super WFS is the ultimate motocross racing goggle. It possesses the same great features as the standard Prospect WFS, but the Super WFS version features a double WORKS lens with the unique addition of premium anti-stick dots for hyper-smooth sliding action and an upgraded mudflap with sealing tape for maximum performance. For riding in muddy conditions, this goggle is as good as it gets.

SCOTT PROTECTION TECHNOLOGIES

D3O® IMPACT PROTECTION TECHNOLOGY

D3O® is a unique material that focuses on energy dispersion in critical areas for maximum shock absorption and protection. The functionality of the raw material originates from the synergetic effects of the polymer-based dilatant. Energy is distributed throughout the synthetic elastomeric polymer and the enhanced chemistry continues to disperse the energy throughout the matrix, significantly reducing the effect of impact.

STANDARD PROTECTION AREA
As required by standard
EN 1621-2: 2014

SCOTT EXTENDED LUMBAR PROTECTION
SCOTT AirFlex offers a further lumbar support with D3O® technology

**PROTECTION BEYOND STANDARDS
EXTENDED LUMBAR PROTECTION**

For improved protection of your back and spine, with extended protection in the crucial lumbar area. We are proud to offer protection that goes beyond the standard and elevates your safety by covering more of your crucial body parts.

CERTIFICATION All our protectors are certified according to current European standards-EN 1621-2: 2014.

- SHOCK ABSORPTION**
Unique technology that focuses on energy absorption and protection.
- LIGHT & FLEXIBLE**
Provides maximum comfort and protection at the same time.
- CE CERTIFIED**
Integrated D3O® protectors allow for highest levels of safety according to CE EN 1621.
- EASILY WASHABLE**
Inserted protective plate is easily removable and washable.
- EXTENDED LUMBAR PROTECTION**
For improved protection of your back and spine, with extended support in the crucial lumbar area.

LEVEL 2 OFFERS TWICE THE PROTECTION OF LEVEL 1

LEVEL 1

The innovative AirFlex plate is made with an exclusive D3O® material for ultimate protective performance. Strategically placed vents and a flexible design mean optimal airflow and maximum comfort. Withstands 5kg impacts with no more than 18KN of force transmitted.

PERFECT FOR: Versatile riders who seek a lightweight protector

LEVEL 2

Level 2 protection offers twice the protection of Level 1. Level 2 Withstands 5kg impacts with no more than 9KN of force transmitted. The EN 1621-2 test drops a 5kg weight on our protector from a 1m height. By measuring the residual force, we design a protector to be Level 1 or Level 2.

PERFECT FOR: Riders in exposed terrain seeking maximum protection & for those looking to comply with the strictest racing rules and legislation.

The EN 1621-2 test drops a 5kg weight on our protector from a 1m height. By measuring the residual force, we design a protector to be Level 1 or Level 2.

Level 2 protection offers twice the protection of Level 1.

PROTECTION TECHNOLOGIES

LUMBAR SUPPORT

For improved protection of your back and spine, with extended support in the crucial lumbar area.

D30® is a unique material that focuses on energy dispersion in critical areas for maximum shock absorption and protection. The functionality of the raw material originates from the synergetic effects of the polymer-based dilatant. Energy is distributed throughout the synthetic elastomeric polymer and the enhanced chemistry continues to disperse the energy throughout the matrix, significantly reducing the effect of impact.

EASILY WASHABLE

Inserted protective plate is easily removable and washable.

Performing at your best requires maximum freedom of movement. While protecting against any energy impact, AirFlex is light and follows your every movement. Soft as a marshmallow, but as hard as a diamond in case of an impact, AirFlex with D30® feels like a second skin that adapts to your body.

SCOTT PODIUM PRO PANTS

420076

The SCOTT Podium Pro pants represent the very latest in motocross pant design and technology. Featuring a wide rear elastic waist band, articulated pre-cut panels and full stretch fabric, these innovative MX pants are fully designed to move perfectly with your body as you make your way to the front of the pack. Also featured are several ventilation solutions including laser cut vent holes to keep you cool in the hottest of riding conditions. When it comes to durability, these motocross pants are fitted with super-strong 900D rear seat panel for improved abrasion resistance and premium genuine leather knee panels with ballistic backing. The Podium Pro Pants also feature our unique alloy hook closure system, which as well as reducing weight, is ultra-comfy when in the seated position.

CONSTRUCTION: DUROxpend, DRYOxcell

COMPOSITION: SHELL: 92% Polyester 8% Elastane

FIT: Athletic

SIZE: 28-38

APPROX. WEIGHT: 480g

FEATURES:

- Articulated pre-cut panels for maximum range of motion
- Unique and secure alloy hook closure system
- Wide rear elastic waist band for maximum mobility and comfort
- 900D rear seat panel for improved abrasion resistance
- Fully taped seams
- Laser cut ventilation holes
- Leather knee panels with ballistic backing for durability
- Perforated mesh panels at back of legs for optimal airflow

SCOTT X-PLORE JACKET

A HIGH PERFORMANCE ENDURO JACKET THAT WILL
PERFORM IN ALL CONDITIONS.

SCOTT X-PLORE JACKET

292381

The SCOTT X-Plore Jacket has been engineered to provide riders with a versatile, high performance enduro jacket that will perform in all conditions. Super durable Ripstop construction with ballistic Nylon reinforcements means this jacket is sure to stand the test of time. Removable sleeves allow you to quickly turn this jacket into a vest and a strategic ventilation system with ports on the front and back offers fully customized climate control. Multiple pockets offer plenty of intelligent storage for your essentials, whilst integrated hydration ports keep everything neat and tidy when riding with a hydration pack. All this and more makes the SCOTT X-Plore Jacket an essential addition to your enduro gear bag.

COMPOSITION: SHELL: 100% Polyester

FIT: Regular

SIZE: S-3XL

APPROX. WEIGHT: 810g

FEATURES:

- Wind resistant material
- Reinforced elbow and shoulders
- Zip off removable sleeves
- Rear zipped pocket transforms into wearable jacket storage
- 5 pockets
- Strategic front and rear ventilation system
- Integrated hydration hose ports
- High visibility reflective panels

SCOTT X-PLORE SWAP OVERBOOT PANTS

292380

With a modern, clean, and neutral look, the SCOTT X-Plore Swap Overboot Pant matches up perfectly with our choice of X-Plore Swap jersey's, allowing you to mix and match to create your own style. Featuring a stretch Kevlar inner knee, highly durable construction throughout, ventilation holes and strategic stretch panels, this bullet-proof enduro pant has everything you need to conquer the trail in total comfort.

APPAREL TECHNOLOGIES

DUROXPAND

A four-way stretch fabric, DUROxpand gives you the freedom of movement and flexibility for adventures that require a greater range of motion.

DRYOSPHERE

DRYOsphere fabrics provide a waterproof/breathable barrier from the elements. A shield against water and wind, DRYOsphere fabric also allows for water vapor to escape from the body, keeping you dry and comfortable in any condition.

LITE-AIR

Lite-Air technology utilizes cutting edge construction methods and lightweight materials to provide maximum levels of ventilation and breathability by increasing airflow around the body to keep you cool when being active.

DRYOXCELL

DRYOxcell is a quick-dry technology that wicks moisture away from the skin and disperses it in the fabric over a larger area, protecting against saturation. This accelerates evaporation and keeps you drier for longer.

GLOVES TECHNOLOGIES

DUROLOFT

DUROloft insulation traps warmth in air pockets, providing great thermal insulation / DUROloft Eco has the same properties as DUROloft but is made of recycled and recyclable fibers / DUROloft Bio is a mix of wool and Polylactic acid fibers, a bioplastic derived from renewable resources. DUROloft combines the great thermoregulating and antibacterial properties of wool with the lightness and quick-dry properties of synthetic fiber. All DUROloft insulations are available in different weights and combined with different fabrics, to cater for all your outdoor activities.

DRYOSPHERE

DRYOsphere fabrics provide a waterproof/breathable barrier from the elements. A shield against water and wind, DRYOsphere fabric also allows for water vapor to escape from the body, keeping you dry and comfortable in any conditions.

CLARINO

The secret to Clarino's™ superior strength and supple hand-feel is the ultra-fine fibre technology. The material is composed of a non-woven fabric consisting of ultra-fine fibres which are impregnated with polyurethane. This helps the fibre to be more flexible and easier to process.

D30®

D30® is a unique material that focuses on energy dispersion in critical areas for maximum shock absorption and protection. The functionality of the raw material originates from the synergetic effects of the polymer-based dilatant. Energy is distributed throughout the synthetic elastomeric polymer and the enhanced chemistry continues to disperse the energy throughout the matrix, significantly reducing the effect of impact.

SCOTT OFFROAD

SOCKS

SCOTT KNEE BRACE SOCK

412814

Specifically designed to be worn with knee braces or knee pads, the SCOTT Knee Brace Socks are manufactured using technical materials and construction methods to offer motocross and off-road riders superior and long-lasting in-boot comfort. A lightweight, stretchy and ventilated upper combined with a low-profile, padded and form-fitting lower means these moto socks provide the perfect combination of comfort and performance for long days on the track or trail. Strong top-section elastic makes sure everything will stay in place no matter how many laps you put in.

FIT: slim
SIZE: 36-38 (S)-45-47 (XL)

- FEATURES:**
- Anatomical shape for perfect fit
 - Abrasion resistant
 - Cushioning at heel and toe
 - Integrated grip
 - Silicon grip on inner waistband to eliminate slippage

SCOTT

SCOTT

SCOTT

LOCK ON

GRIPS

CONTROL MATTERS

SCOTT LOCK ON GRIPS TAKE RIDER CONTROL TO THE NEXT LEVEL. FEATURING THE LATEST TECHNOLOGIES AND PREMIUM FEATURES, THESE GRIPS OFFER RIDERS THE SAME PRO-LEVEL PERFORMANCE AS OUR TRADITIONAL GRIPS, WITH THE EXTRA BENEFIT OF QUICK AND EASY INSTALLATION.

IMPROVED SAFETY

Thanks to our premium alloy clamps, SCOTT Lock On Grips will stay in place no matter what. Once locked in place, there is no chance of the grips slipping on the handlebar.

VIBRATION REDUCTION TECHNOLOGY

Vibration reduction in our clutch-side Lock On Grip is achieved through our strategically windowed core. The window is positioned so that it is in line with riders hand when in the riding position. Even though you can't feel the window when mounted on a handlebar, the soft material which fills out the window greatly reduces vibrations compared to a standard solid core.

FAST AND EASY INSTALLATION

With the SCOTT Lock On Grips there is no need for safety wire or messy grip glue. There are 24 locking points, offering maximum options to place the grips in exactly the position you like. Installation is super-fast and there is no time wasting whilst you wait for glue to dry after installation. Simply lock on and ride!

CAM COMPATIBILITY

Our Lock On Grips are supplied with multiple cam sets to fit the most common models of dirt bike. Simply select the right Cam for your bike from our Cam Compatibility Table, install it and you're ready to go.

PREMIUM RUBBER

By using our tried and tested SXII rubber grip pattern, the SCOTT Lock On Grips offer riders maximum control and longevity in all conditions.

SCOTT SX II LOCK ON GRIP + CAM SET

292452

The SCOTT SXII Lock On Grips are the result of over 50 years of SCOTT's experience making market-leading motocross grips. Capitalizing on this experience and technical know-how, the SCOTT engineers used the latest cutting-edge materials and manufacturing processes to create a motocross grip that offers all the control and comfort you need, whilst also making installation a breeze. No grip glue or wire is required to mount the grips and any form of grip slippage is completely eliminated. With our tried and trusted SXII diamond rubber pattern combined with vibration reducing construction, the SXII Lock On grips will provide a premium riding experience for any level of rider.

FEATURES:

- Lock On mechanism
- Anodized Alloy Clamp
- Cam set included for most 2 & 4 stroke bikes
- Quick and easy installation without glue or wire
- Double density grip
- Anti-vibration construction
- Full Diamond design
- Firm density inner compound
- Soft density outer diamond pattern

SCOTT DIAMOND + DONUT GRIP

219626

The go-to motocross grip for many a professional racer, the SCOTT Diamond Grip is the most advanced mx grip in the range thanks to its highly advanced triple density construction. A medium density outer waffle pattern delivers maximum control and durability, whilst the soft density diamond pattern area reduces vibration, therefore reducing arm pump and fatigue. A firm density end cap offers further durability to this advanced motocross or enduro grip. The included grip donuts increase comfort and greatly reduce the chances of getting thumb blisters.

FEATURES:

- Triple density grip
- Full Waffle design
- Integrated safety wire channel
- Grip donut included

SCOTT RADIATOR 12 PACK

The SCOTT Radiator 12 Pack is the ultimate piece of kit for enduro and off-road riding. The tactical-style design means that as well as having ample space in the main compartment there are also two generous pockets integrated into the front straps for extra essentials that need quick and easy access. With a separate bladder compartment and adjustable tube fixation points this pack is fully hydro-ready for those who want to add a bladder. A highly adjustable strap system means you can customize the fit perfectly whilst durable materials and construction will make sure the Radiator 12 Pack will hold up under even the most demanding of conditions.

APPAREL TECHNOLOGIES

GORE-TEX PERFORMANCE GARMENTS

Designed for when your outdoor adventures get wet—very wet. Whether you're exploring a national park with friends on a multi-day trek in the pouring rain, or encountering heavy snowfalls when riding the perfect tree run, these totally water- and windproof garments, with the **GUARANTEED TO KEEP YOU DRY™** promise, provide long-lasting breathability and solid protection so you can take your journey further. Lasting breathability / Solid protection / Durably waterproof / Totally windproof.

DRYOSPHERE

DRYOsphere fabrics provide a waterproof/breathable barrier from the elements. A shield against water and wind, DRYOsphere fabric also allows for water vapor to escape from the body, keeping you dry and comfortable in any condition.

DUROXPAND

A four-way stretch fabric, DUROxpand gives you the freedom of movement and flexibility for adventures that require a greater range of motion.

2-WAY STRETCH FABRIC

A two-way stretch fabric that gives you the freedom of movement and flexibility for adventures that require an improved range of motion.

YKK

Little Parts. Big Difference..

YKK WATERR ZIPPER

WaterR is a durable water-repellent treatment used to enhance YKK's range of aqua zippers. YKK's WaterR treated items are available for a variety of functions in both Coil and Vislon® and helps to reduce water seepage and wicking in outer shell garments and equipment. All our YKK WaterR zippers passed the GORE-TEX approval for ADV garments.

YKK

Little Parts. Big Difference..

YKK AQUAGUARD® ZIPPER

AquaGuard® is a water-repellent zipper. It is created by laminating PU on the textile tape, the PU layer is acting as a membrane. YKK's AquaGuard® items are available for a variety of functions in both Coil and Vislon®. It is the most commonly used zipper solution for quality rain and wind proof outer shell garments. Unlike standard PU coated items, the superior AquaGuard® range withstands an extensive shower test and does not absorb water.

DEXFIL® INSULATION

Thin and lightweight, DEXfil insulation provides superior insulation by trapping high levels of still air in each given space. The incredibly fine denier fabric creates an extraordinary insulating effect that retains its shape and insulating properties even after repeated cleaning.

CO DWR OR PFC-FREE

Perfluorinated and polyfluorinated compounds, also known as PFCs, are a group of fluorinated substances that have long been used to provide durable water repellence for clothing in the outdoor industry. They are very bad for the environment because they are very stable and do not easily break down in nature, which is why PFC-free/CO DWR treatments have been developed. These are less durable but more sustainable.

CORDURA®

CORDURA® fabric is what many of the most respected brands and retailers around the world use when they need to make a product that's durable, versatile and reliable. Constructed using high tenacity fiber technologies, weight for weight, CORDURA® fabrics are exceptionally durable.

A DIGITAL LEATHER PRODUCED IN THE UK

Motorcyclists worldwide demand the highest level of performance from their protective equipment.

SCHOELLER® DYNAMIC

The schoeller® dynamic fabric is a comfortable all-round material with an extraordinary optic. Characterized by durability, freedom of movement and a high level of comfort.

D3O PROTECTION

D3O® is a unique material that focuses on energy dispersion in critical areas for maximum shock absorption and protection. The functionality of the raw material originates from the synergetic effects of the polymer-based dilatant. Energy is distributed throughout the synthetic elastomeric polymer and the enhanced chemistry continues to disperse the energy throughout the matrix, significantly reducing the effect of impact.

BLUESIGN® APPROVED MATERIAL

The gold standard for more sustainable textiles is blue. From fiber to finished product, bluesign® partner with brands, manufacturers, and chemical suppliers because the world needs safer workplaces and textile products that are less impactful on the environment and people. Consumers can trust that bluesign® labeled textiles and products from the chemical inputs to the final production have met the strictest standards throughout the supply chain.

GLOVES TECHNOLOGIES

GORE-TEX PERFORMANCE GARMENTS

Designed for when your outdoor adventures get wet—very wet. Whether you're exploring a national park with friends on a multi-day trek in the pouring rain, or encountering heavy snowfalls when riding the perfect tree run, these totally water- and windproof garments, with the **GUARANTEED TO KEEP YOU DRY™** promise, provide long-lasting breathability and solid protection so you can take your journey further. Lasting breathability / Solid protection / Durably waterproof / Totally windproof.

DRYOSPHERE

DRYOsphere fabrics provide a waterproof/breathable barrier from the elements. A shield against water and wind, DRYOsphere fabric also allows for water vapor to escape from the body, keeping you dry and comfortable in any condition.

PRIMALOFT®

PrimaLoft® insulation products offer superior performance in cold weather. PrimaLoft® is lightweight, breathable and proven to repel water better than any other synthetic or natural insulation. With PrimaLoft® you stay dry, warm, and comfortable even in the most extreme conditions.

SALES SUPPORT

SCOTT

COLOR & MATERIALS

Color and material selections are carefully curated to enhance SCOTT's products. They are durable and authentic, making the concept a reliable investment for retailers.

WALL SECTIONS

The SCOTT Retail Wall Sections serves as the cornerstone of the SIS concept. With its high-level product display and captivating image possibilities, it creates an attention grabbing atmosphere within the store environment. Whether fixed to permanent walls or freestanding to create new exciting customer paths, the wall sections enhances the store's visual appeal and elevates the overall customer experience.

IMPLEMENTATION OF WALL SECTIONS

When planning for the implementation of wall sections, it is essential to prioritize the customer experience. If there are existing permanent walls available for attachment, the use of freestanding wall sections may not be necessary, although they can still serve the purpose of dividing product categories. The concept of wall sections can also be effectively employed in a freestanding manner when creating a new customer path

within a store, without the need for constructing new permanent walls. It is important to carefully measure the intended areas and ensure that there are no obstacles to the construction, such as ventilation systems, etc. Subsequently, the order should be planned starting from the left, as outlined below...

FABRIC FRAMES

The use of images in retail design plays a key role in creating an engaging and attractive shopping environment. They foster an emotional connection with customers, enhance the visual appeal of spaces, and guide consumer behavior. Images serve to highlight specific products, promote offers, and reinforce brand identity. Therefore, strategic use of imagery is crucial for a successful retail experience, promoting sales, building brand loyalty, and standing out.

ELECTRONIC DATA INTERCHANGE

WHAT IS EDI – ELECTRONIC DATA INTERCHANGE

Improve your business efficiency and simplify work with SCOTT's electronic data interchange (EDI) SOLUTION. EDI is a solution for computer-to-computer exchange of business documents in a standard electronic format between business partners.

These business documents cover a wide range of options from placing an order, fulfilling the product database with prices, EAN code, product descriptions, or even exchanging electronic invoices, and in some contexts, optionally exchanging stock level information.

TRADITIONAL INFORMATION EXCHANGE

SCOTT EDI SOLUTIONS HELP YOU TO BECOME MORE EFFICIENT

By proceeding with IT connection between our Business Software and your Business Software, both yourself, your collaborators and SCOTT's employees

- ✓ Avoid manual operations
- ✓ Save employees time
- ✓ Avoid human error
- ✓ Simplify business documents and information exchange

WITH EDI AUTOMATIC EXCHANGE

WHO CAN BENEFIT FROM OUR SCOTT EDI SOLUTIONS?

EDI is an electronic format that every business can use, so long as both partners have Business Software compatible with EDI solution.

If you are unsure, contact your IT service provider and ask!

HOW MUCH DOES EDI INTEGRATION COST?

SCOTT offers a range of EDI integration solutions in different data formats. We do not charge anything for the service of integrating with your EDI-ready solution.

The only cost for you would be the cost of enabling EDI capability on your Business software, with your habitual IT service provider.

WHAT EDI SOLUTIONS DOES SCOTT OFFER AND HOW COULD I BENEFIT FROM THE SERVICE?

STEP #1

Check with your IT provider if you can handle EDI integration, and what it would cost for you. To make the process smoother you can share the technical documentation delivered here:

WWW.SCOTT-SPORTS.COM/EDI

STEP #2

If your IT Provider confirms your ability to benefit from EDI integration, please contact your usual SCOTT Sales Representative or SCOTT Customer Service, they will deliver all the necessary information for organizing the next steps.
