GRIPS

CONTROL MATTERS

SCOTT LOCK ON GRIPS TAKE RIDER CONTROL TO THE NEXT LEVEL. FEATURING THE LATEST TECHNOLOGIES AND PREMIUM FEATURES, THESE GRIPS OFFER RIDERS THE SAME PRO-LEVEL PERFORMANCE AS OUR TRADITIONAL GRIPS, WITH THE EXTRA BENEFIT OF QUICK AND EASY INSTALLATION.

IMPROVED SAFETY

Thanks to our premium alloy clamps, SCOTT Lock On Grips will stay in place no matter what. Once locked in place, there is no chance of the grips slipping on the handlebar.

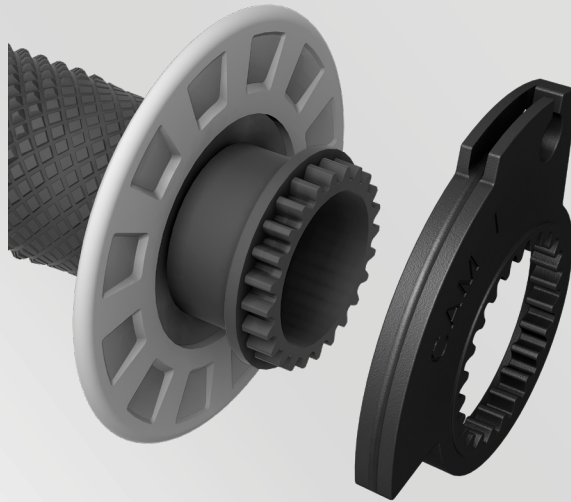

VIBRATION REDUCTION TECHNOLOGY

Vibration reduction in our clutch-side Lock On Grip is achieved through our strategically windowed core. The window is positioned so that it is in line with riders hand when in the riding position. Even though you can't feel the window when mounted on a handlebar, the soft material which fills out the window greatly reduces vibrations compared to a standard solid core.

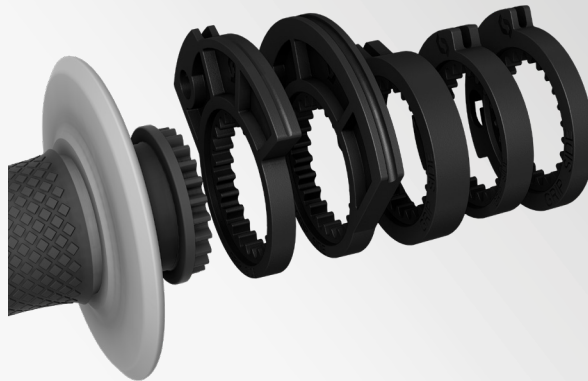

FAST AND EASY INSTALLATION

With the SCOTT Lock On Grips there is no need for safety wire or messy grip glue. There are 24 locking points, offering maximum options to place the grips in exactly the position you like. Installation is super-fast and there is no time wasting whilst you wait for glue to dry after installation. Simply lock on and ride!

CAM COMPATIBILITY

Our Lock On Grips are supplied with multiple cam sets to fit the most common models of dirt bike. Simply select the right Cam for your bike from our Cam Compatibility Table, install it and you're ready to go.

PREMIUM RUBBER

By using our tried and tested SXII rubber grip pattern, the SCOTT Lock On Grips offer riders maximum control and longevity in all conditions.

SCOTT SX II LOCK ON GRIP + CAM SET

292452

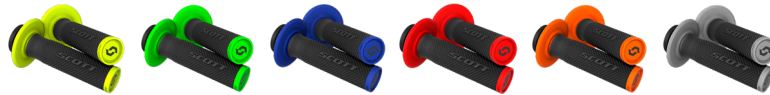

The SCOTT SXII Lock On Grips are the result of over 50 years of SCOTT's experience making market-leading motocross grips. Capitalizing on this experience and technical know-how, the SCOTT engineers used the latest cutting-edge materials and manufacturing processes to create a motocross grip that offers all the control and comfort you need, whilst also making installation a breeze. No grip glue or wire is required to mount the grips and any form of grip slippage is completely eliminated. With our tried and trusted SXII diamond rubber pattern combined with vibration reducing construction, the SXII Lock On grips will provide a premium riding experience for any level of rider.

FEATURES:

- Lock On mechanism
- Anodized Alloy Clamp
- Cam set included for most 2 & 4 stroke bikes
- Quick and easy installation without glue or wire
- Double density grip
- Anti-vibration construction
- Full Diamond design
- Firm density inner compound
- Soft density outer diamond pattern

SCOTT DIAMOND + DONUT GRIP

219626

The go-to motocross grip for many a professional racer, the SCOTT Diamond Grip is the most advanced mx grip in the range thanks to its highly advanced triple density construction. A medium density outer waffle pattern delivers maximum control and durability, whilst the soft density diamond pattern area reduces vibration, therefore reducing arm pump and fatigue. A firm density end cap offers further durability to this advanced motocross or enduro grip. The included grip donuts increase comfort and greatly reduce the chances of getting thumb blisters.

FEATURES:

- Triple density grip
- Full Waffle design
- Integrated safety wire channel
- Grip donut included

SCOTT DUECE + DONUT GRIP

219627

The SCOTT Deuce Grip is a half-waffle, dual compound motocross grip designed to offer the perfect mix of grip and comfort. Constructed with a medium density raised half-waffle pattern and a soft density palm area, this motocross grip fights vibration, arm pump and fatigue whilst also offering highly advanced levels of control.

FEATURES:

- Double density grip
- Half Waffle design
- Soft density palm area
- Integrated safety wire channel
- Grip donut included

SCOTT SX II + DONUT GRIP

219624

The SCOTT SX II Grip is a dual density motocross grip that features a soft, diamond pattern outer density for maximum control and a hard density inner core and end cap for longevity. The diamond texture offers incredible grip, whilst the soft compound helps reduce arm and hand fatigue. The included grip donuts further increase comfort and greatly reduce the chances of getting thumb blisters. The SXII motocross grip is a top choice amongst many top MX racers and weekend warriors alike.

FEATURES:

- Double density grip
- Full Diamond design
- Firm density inner compound
- Soft density diamond pattern
- Integrated safety wire channel
- Grip donut included

SCOTT MELLOW + DONUT GRIP

269305

The SCOTT Mellow Grip is a dual density motocross grip with a soft, Vario Blok design outer density, surrounding a long-lasting, firm density core. The outer Vario Blok design offers superb, consistent grip and helps reduce arm and hand fatigue through superior vibration absorption. It also makes it one of the most comfortable motocross grips out there! The included grip donuts further increase comfort and greatly reduce the chances of getting thumb blisters.

FEATURES:

- Double density grip
- Vario Blok design
- Firm density inner compound
- Soft density Vario Blok pattern
- Integrated safety wire channel
- Grip donut included

SCOTT RADIAL FULL WAFFLE GRIP

233925

The SCOTT Radial Full Waffle Grip is based on the classic Hurricane grip - the standard by which most motocross grips were based for many years. The Radial Full Waffle grip features a tried and true design that has stood the test of time. The full waffle pattern offers maximum control and a dependable, secure feel that many top racers demand.

FEATURES:

- Single density grip
- Full Waffle design
- Integrated safety wire channel
